

Full retrieved graph • Purple: reported • Green: 0-19 • Yellow: 20-49 • Orange: 50-79 • Red: 80-100 • Grey: unknown • Diamond: UTXO transaction
Overview only: parallel transfers share paths in this image. Exact addresses and individual events follow in the ledgers. Funds continuity is not established.

Full addresses, observed hop distance and recorded reasons. Unknown scores are not zero. Exchange labels identify leads and do not establish innocence.

HOP	ADDRESS / IDENTIFIER	ROLE / ENTITY	SCORE	RECORDED REASONS
0	0x111111111111111111111111111111111111	reported wallet	Unknown	Synthetic fixture; not a real fraud attribution; Incomplete history

Interpretation and verification

Review the originating complaint, reconcile significant transfers with independent chain records, and verify entity-label sources and dates before making an attribution. A high score is a triage signal; a low or unknown score does not clear an address. Graph connections do not prove common control or that the same stolen funds moved.

Integrity and provenance

The SHA-256 printed on the case overview identifies the canonical saved trace payload before the response-only evidence_sha256 field is added. It is not the hash of this PDF, a digital signature, an independent timestamp or a complete chain of custody. Browser-generated exports can be modified; retain the trusted stored snapshot and controlled source evidence separately.

Dossier generated (UTC): 2026-09-28T11:14:54.932Z. Report renderer: CryptoTrace 2.2.0. API keys, passwords and login-session tokens are not included.

Review worksheet - complete outside the application

REVIEW FIELD	TO BE COMPLETED BY THE RESPONSIBLE OFFICER
Official complaint / FIR linkage	
Independent verification references / exhibits	
Source evidence preservation / custody reference	
Analyst name, designation, signature and date	
Reviewer name, designation, signature and date	

This worksheet is not the statutory electronic-evidence certificate. Where applicable, the responsible parties and expert must address section 63 and the Schedule of the Bharatiya Sakshya Adhiniyam, 2023, with agency/legal guidance. No signatures or official approval are generated by CryptoTrace.
